Testing Reason: Real-Estate Transaction Post Mitigation Personal Knowledge

Room Location:
(Example: Living Room)

***** IF TEST LOCATION IS DIFFERENT FROM THE ADDRESS ABOVE *****

Test Address:

City:

State: ZIP:

PREPARE TO BEGIN THE TEST:

- Do not open the plastic bag containing the radon detector until you are ready to begin testing.
Your test kit should include a radon detector (black plastic disk), this information card, and return mailer.
- Record your name, address, phone number, Test Kit Serial #, and test location on the front of this information card.
** Please refer to our Frequently Asked Questions section online for help: www.DrHomeAir.com/FAQ **
- Choose how you would like to receive your results. Please choose only one option. For fastest results, select either fax or email.
For email, add radon@alphaenergylabs.com to your contact book or address list to prevent the report from being flagged as SPAM.
**** Alpha Energy Labs is not responsible for undelivered email reports due to incorrect email settings. ****

**** Record the Test Kit Serial # on a separate piece of paper for your own records. ****
**** Test Kit Serial # is located on the bottom of the radon detector. ****

BEGIN TESTING:

- You may now open the plastic bag containing the radon detector. This will begin your radon test.
- Record your start date on this information sheet. Start date is required for a test result.
- You will want to place the radon detector on the lowest inhabited level of your home, using these guidelines:
DO:
 - Place the radon detector on a flat surface.
 - Place the radon detector in the breathing zone (2-7 feet above the floor).
 - Place the radon detector at least 3 feet from exterior doors and windows.
 - Place the radon detector at least 6 inches from any wall or large object.**DO NOT:**
 - Do not place the radon detector near heating or air conditioning vents, or a place where it will be exposed to constantly moving air.
 - Do not place the radon detector where it will get wet.
 - Do not place the radon detector in areas of high humidity or moisture (i.e. bathroom, crawlspace, or sump).
 - Do not place the radon detector in direct sunlight or near heat sources.

***** THE TEST SHOULD BE RUN BETWEEN 90-365 DAYS *****

STOP TESTING:

- Detectors exposed for less than 90 days or more than 365 days are invalid and cannot be analyzed.
- Record the stop date on this information sheet and fill out any missing information. Stop date is required for a test result.
** Please refer to our Frequently Asked Questions section online for help: www.DrHomeAir.com/FAQ **
- For fastest service, we recommend entering your information sheet online at www.DrHomeAir.com/Entry
- Before shipping, make sure you have recorded the following for your own records:
 - Test Kit Serial # (Suggestion: Take a picture with your cell phone!)
 - Date you shipped the package, tracking number, and shipping method (i.e. FedEx Ground 1/30/2016)
- On the outside of the mailer, print the Test Kit Serial # in the appropriate box.
- **Place this information sheet and radon detector inside the mailer and seal it to stop the test.**

MAIL THE PACKAGE FOR ANALYSIS:

- Mail the package to Alpha Energy Labs at 2501 Mayes Road Suite #100, Carrollton, TX 75006.
We strongly recommend a shipping method with a tracking number.
Please allow approximately 3 weeks for analysis after the date we receive the radon detector in our laboratory.
- Once analysis is complete, a report will be sent to you via the method you specified on the front of this sheet.
- You can track the status of your report and download the report once complete online at DrHomeAir.com/Results
Please allow 2-3 business days after receipt for tracking to be available.

**** Alpha Energy Labs cannot be responsible for packages lost or delayed in the mail ****
